

RAT FAIR

- TIME OF DAY -

NAME: _____ DATE: _____

Rats are **nocturnal** - they are usually awake at night and sleep during the day.

Humans are **diurnal** - we are usually awake during the day and sleep during the night.

Look at the picture above. What time of day do you think it is?

List two things you see in the picture that makes you think it is that time of day:

What do you think the humans are doing while the rats are enjoying their fair?
